ART-SPACE International Exhibition Complex

Stylish space in the center of Moscow

The new ART-SPACE exhibition complex, located on Tverskaya Street 9, is specially created for the life of art. It is not just a gallery, but a multifunctional space where art takes on new forms and meanings.

A full-fledged ecosystem for art

The complex also houses the Art-shop and Art-cafe "ATMOSPHERE", creating a comfortable environment for art lovers. Here you can not only enjoy the exhibitions, but also purchase unique works or discuss what you have seen over a cup of coffee.

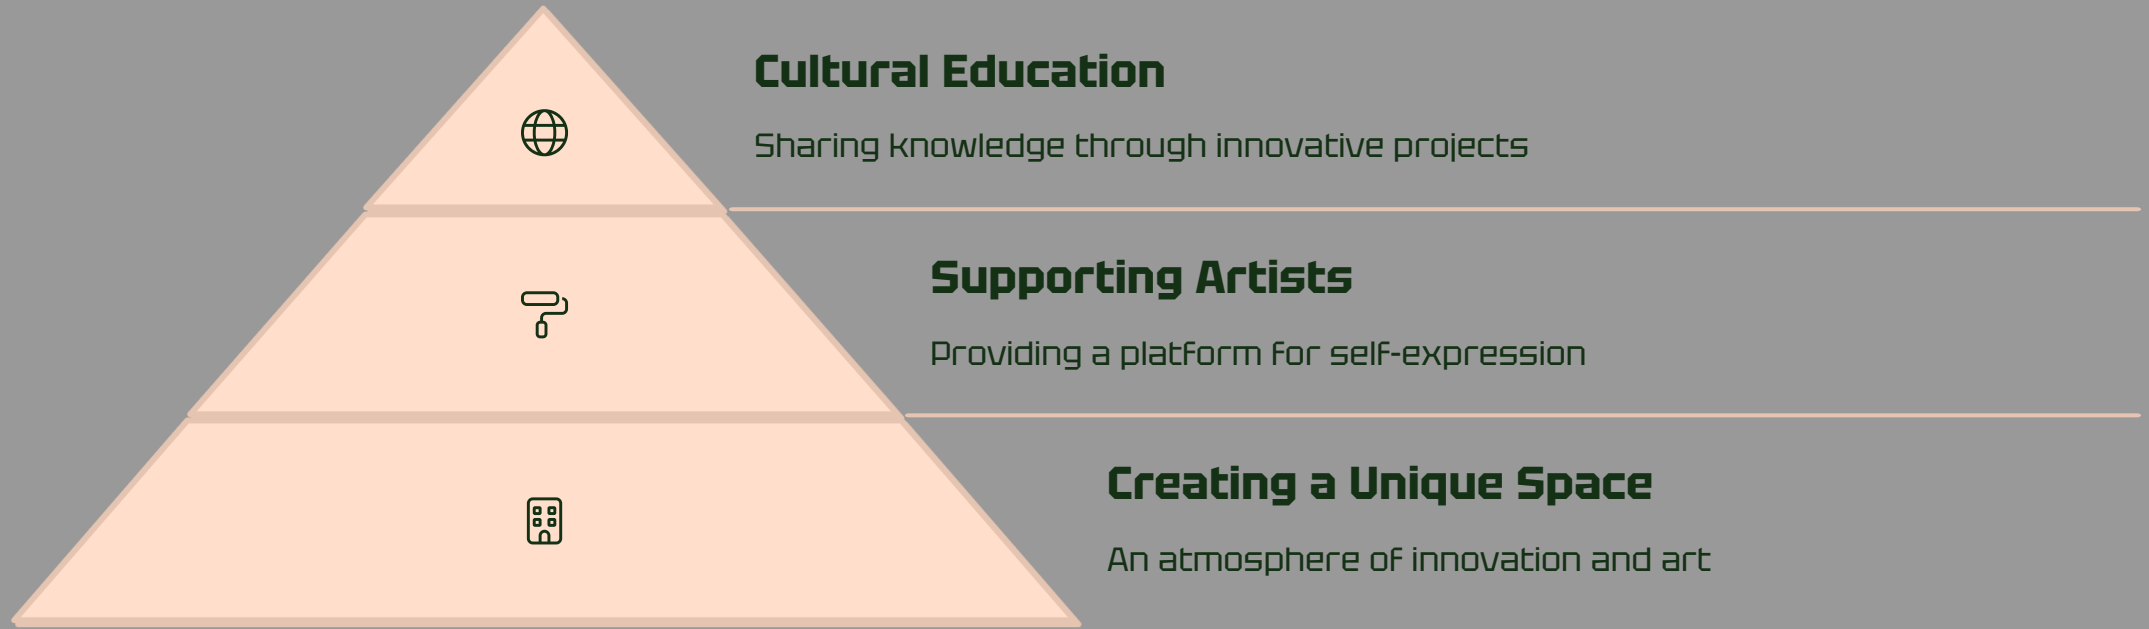

Platform for diverse events

ART-SPACE is a center of contemporary art, providing spaces for exhibitions, discussions, fashion shows, immersive shows, digital installations, private film screenings, and music events.

ART-SPACE Mission and Vision

Our goal is to create an atmospheric, innovative space for immersion in the world of contemporary and classical art from around the globe. We strive not only to provide talented artists with a platform for self-expression, but also to make art accessible to a wide audience.

ART-SPACE actively shares knowledge about the rich cultural heritage of different countries through innovative exhibition projects, creating a bridge between tradition and modernity, between artists and viewers.

Technological Focus in ART-SPACE

Virtual Reality

Immersion in artistic worlds through VR technologies allows viewers to literally "enter" the work of art and interact with it at a new level.

Augmented Reality

AR technologies add new dimensions to traditional works, enriching the perception of art with additional layers of meaning and interactivity.

Immersive Exhibitions

Creating a fully immersive environment where the boundaries between the viewer and the work are blurred, allowing one to feel the pulse of urban life in a new way.

We are betting on modern augmented and virtual reality technologies to create a unique experience of interacting with art. Our model differs from traditional museums and cluster galleries thanks to these technological capabilities.

The integration of AR and VR technologies is particularly relevant for the exhibition "Metropolis: The Pulse of the City", where they help convey the dynamics and energy of urban life in the format of interactive and immersive exhibitions.

Exhibition "Metropolis: The Pulse of the City"

Urbanism

Urban landscapes and architectural forms in contemporary art

Dynamics of the City

Exploring the rhythm and energy of the metropolis

Social Interactions

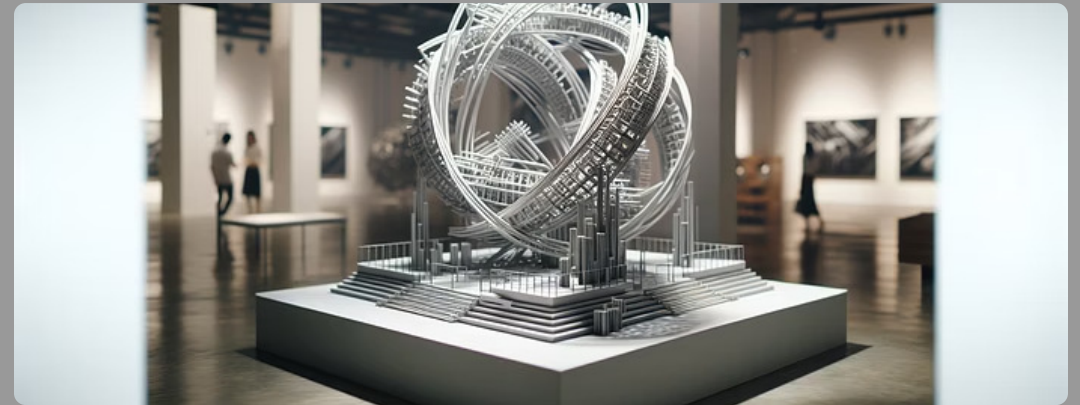

Artistic reflection on relationships in the context of a big city

The exhibition "Metropolis: The Pulse of the City", which will take place from August 28 to September 14, explores the multifaceted nature of modern urban life through art. The focus is on studying the rhythm of city life, the movement and energy of the metropolis.

The presented works reflect urban motifs, architectural forms and cityscapes, allowing viewers to look at the familiar living environment in a new way. A special place in the exhibition is occupied by the artistic reflection on interpersonal relationships in the context of a big city.

Visual Inspiration and Atmosphere

The exhibition's atmosphere aims to convey the "pulse of the city", its continuous movement and life. The artworks reflect the dynamics, rhythm, and energy of the metropolis through a variety of forms and media - from traditional painting to digital installations.

Particular attention is paid to urban landscapes and architectural forms, which become not just a backdrop, but full-fledged participants in urban life. Blurred lights of moving vehicles, the geometry of high-rise buildings, the intersection of human flows - all these elements come together to form a multi-layered portrait of the modern metropolis.

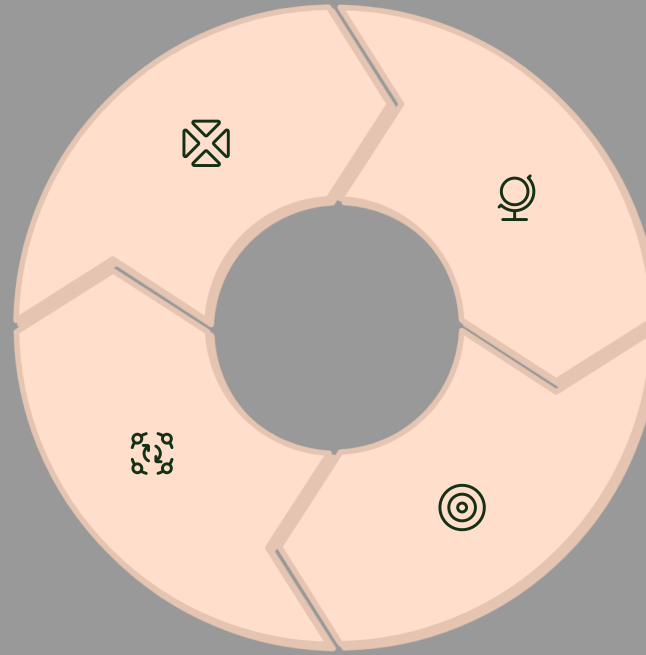

Why this exhibition is important

Concept alignment

The exhibition directly reflects ART-SPACE's focus on current topics of urbanism and contemporary art

Cultural contribution

The exhibition promotes cultural dialogue and the development of the urban environment

International dialogue

The universal theme of the city unites artists from around the world

Strategic development

The event is part of ART-SPACE's development plan for 2025-2027

The exhibition "Metropolis: The Pulse of the City" is of particular importance as it directly aligns with ART-SPACE's concept of organizing exhibitions that cover current topics of urbanism and contemporary art. By presenting the universal theme of the city, it fosters international dialogue, bringing together artists with diverse cultural roots.

This event is an important part of ART-SPACE's detailed development plan for 2025-2027, which includes a series of relevant thematic exhibitions that establish the complex's reputation as a center for innovative art.
